

NATIONAL PUBLIC SAFETY TELECOMMUNICATIONS COUNCIL

October 25, 2013,

Marlene H. Dortch
Secretary
Federal Communications Commission
445 12th Street, S.W.
Washington, DC 20554
Re: WP Docket No. 07-100, PS Docket No. 06-229 and WT Docket No. 06-150

Dear Ms. Dortch:

The National Public Safety Telecommunications Council (NPSTC) created the 4.9 GHz National Plan with input from a wide variety of individuals and organizations. More than ninety volunteers representing public safety, industry, the manufacturing community and the private sector participated in the development of reports and data that were used in the preparation of the final report.

The recommendations made in this report are those of the member associations of NPSTC and do not necessarily represent the opinions and recommendations of all members of the National Plan working group. NPSTC wishes to again thank all of the volunteers who provided information and insight that was essential in the creation of the final document. NPSTC does not wish to represent that all of those volunteers, listed in Appendix C of the report, are in agreement with all of the recommendations listed.

NPSTC encourages the filing of additional Ex Parte communication with the FCC by any organization or agency that wishes to do so.

Respectfully submitted,

Ralph A. Haller, Chair
National Public Safety Telecommunications Council
